

Transition your skills and launch your new career Barclays' AFTER Military Fellows Program

AFTER Military Fellows one of Barclays' flagship hiring programs, helps individuals who have chosen to serve in the military or as military spouses to enter or re-enter the corporate workforce. Barclays believes that diversity of experience and perspective will lead to solutions of the future. We believe that veterans, military spouses, and members of the guard and reserve bring the perspective and leadership skills to identify drive those solutions.

We are now accepting applications for Barclays' **8-12-week AFTER** program in New York, NY, Whippany, NJ, Wilmington, DE and Henderson, NV. Selected participants will join the program beginning in the **summer of 2021 and thereafter**.

AFTER provides participants with the opportunity to reapply their skills in a new setting through leadership and development training, mentorship, networking opportunities, and a contributing role for the program's duration. Qualified candidates with strong performance are eligible to be considered for full-time roles based on availability and mutual interest.

This program is targeting veterans, members of the Guard or Reserves and military spouses that are currently transitioning from military service or from college to full-time professional employment.

Applicant requirements:

- Achieved a team leadership role or above in the military or civilian workforce
- Within six months before or two years after leaving active military service or graduating from college
- Be able to commit to working full-time at the designated Barclays campus for the full 8-12 weeks and have an interest in a full-time position with Barclays after the program ends.

To express interest or for questions contact Barclays Military & Veterans Outreach at MVO_USA@barclayscorp.com
